

FAIRTECH AB OPTICLINK GROUP

Fairtech group is a scandinavian manufacturer for fiber optical cable and Telecom solutions. Founded in 2003 in Sweden and factory for fiber optic products located in China on the name of Opticlink .

It was the result of extensive development utilizing the Group's research & development capabilities coupled with our cabling experiences, to provide the most competitive yet technology and advanced solutions.

The core of the Fairtech group is the comprising of accessories to complement our cables solutions, with high quality and international standard.

We help you deliver more bandwidth and capacity, accelerate performance and availability, improve efficiency, and implement simpler,

FIBER OPTIC ASSEMBLIE

PIGTAILS**PIGTAILS**

ST Multimode Pigtail

SC Multimode Pigtail

FC Multimode Pigtail

LC Multimode Pigtail

ST Singlemode Pigtail

SC Singlemode Pigtail

FC Singlemode Pigtail

LC Singlemode Pigtail

SC/APC Singlemode Pigtail

MTRJ Multimode Pigtail

LC/APC Singlemode Pigtail

FC/APC Singlemode Pigtail

Optical fiber pigtails are essential when terminating cables within the splice enclosure. Purchasing pre polished assemblies takes the risk of poor connector termination away from the project. Cables terminated within a production facility will give a higher performance than cables terminated on site.

The Opticlink range of optical fiber pigtails has grown through the years, from every day standard versions to special products to meet your needs. From industry standard 62.5/125 multimode to 9/125 singlemode right the way up to state of the art OM3 50/125 and now OM4.

cable assemblies, we are able to supply them all. with our cable assembly you can be confident you are using the cable, connectors and manufacturing

Features :

- Multimode & Singlemode applications ST/SC/FC/LC/E2000/MU Connector types
- Ultra polish & Angle polish options available all terminations are manufactured to exceed performance parameters set by industry standards
- Fast turn around of non-standard requirements
- Full traceability & test certification supplied with each assembly

MPO SOLUTIONS

MPO SOLUTIONS

MPO assemblies

Opticlink offers an extensive line of high-density MPO multi-fiber connector products including jumpers, fan-out

MPO Cable :

- OS1,OM1,OM2,OM3
- Fanout available with LC, SC, ST, FC, MU, or MTRJ connector.
- Available both as patch cable and fanouts
- No termination needed reduce installation time and cost

The MPO connector is the most compact connector available on Multistrand fiber cables

MPO Cables are the most compact multifiber cable around. What's More, you get up to 12 fibers in a single cable run.

Run multistrand fiber optic cables without worrying about expensive, time-consuming termination. Because they're preterminated, you can install and test them in the same day.

Specifications :

Fiber type 62.5/125um multimode

Insertion Loss Typical: 0.7 dB; Maximum: 1.0 dB

MPO Crimp Sleeve Tin-plated copper

MPO Ferrule Reinforced thermoplastic with stainless-steel alignment/guide

MPO Grip Housing VO-rated thermoplastic

MPO Strain-Relief Boot VO-rated thermoplastic rubber

MPO Cable

MPO Module

MPO Module :

MPO 12 ports SC module

Black module pre-wired for 12 SC connections.

Designed to fit modular sliding tray panel

MPO 24 port LC module

Black module pre-wired for 24 LC connections via two MPO connections. Designed to fit modular sliding tray panel.

Modular Patch Panel

Modular Patch Panel

19" 1u Black sliding tray patch panel for 3 modules.

Supports up to 36 SC connections with 3 MPO links or 72 MTRJ / LC connections with 6 MPO links.

MPO Fan-out :

MPO fan-out for use inside patch panels and wall boxes. Available in SC, ST, FC, LC & MTRJ terminations.

12 way MPO to 12 SC,

12 way MPO to 12 LC,

Fan-out MPO

OS2,OM1,OM2,OM3

SC Multimode Simplex Adapter

LC Singlemode Quad Adapter

MT-RJ & MPO & HYBRID ADAPTERS

MT-RJ Adapter

MPO Adapter

SC-ST Multimode Simplex Adapter

FC-ST Singlemode Simplex Adapter

An optical fiber adapter or uniter is used to mate two connectors together, usually mounted in a distribution panel or wall box. Our adapters are precision made to ensure perfect alignment of connectors, reducing insertion loss. In the most cases the sleeve is the critical part of the system that aligns the ferrule part of the connectors keeping the fibers in perfect alignment.

Generally there are two type of the alignment sleeve within an adaptor, phosphore bronze for the multimode or Zirconia(ceramic) for the singlemode.

In the case of MTRJ and MPO the alignment is carried out by two small pins fitted to one of the connectors. The adapter is purely to support and lock the connectors together in the distribution panel or wall box.

Product Packaging

Packing according to the requirement and OEM

Features :

- Available as FC, SC, ST, LC, METRJ and MPO
- Available in simplex, duplex, quad(LC) and hybrid type
- High precision zirconia or standard phosphor bronze sleeves
- Low insertion loss
- High repeatability and stability

Applications:

- Fiber distribution
- Telecommunication systems
- Testing instrument

CONNECTORS

Description

The connectors are mainly used in the telecommunications market due to precision interconnect and secure connection, but can be seen in every area of the communications environment. The OPTICLINK connectors are manufactured using the best quality components. The connector exceeds all areas of the standards covering optical fiber connectors.

| Optical Performance (Multimode) | Optical Performance (Singlemode) | | Intermateability | Mechanical | | |
|---------------------------------|----------------------------------|---|---|-------------------------------|---|---|
| Insertion loss | Insertion loss | Return Loss | | Capillary diameter tolerance: | Ferrule Diameter: | Tensile Strength |
| Max. 0.3 dB Typical 0.15 dB | Max. 0.3 dB Typical 0.2 dB | UPC>50dB Typical 55dB APC>60dB Typical 65 dB | Optically and mechanically compatible with all equivalent connectors. (Compliant with IEC 61754-13) | SM-126 ± 0.5um | 2.5 ± 0.001mm | Cable retention: >50N (2&3mm boot versions only) |
| | | | | MM-127 ± 0.5um | Pre-radiused ,PC-end finish for Physical Contact ferrule to ferrule. R 10 to 25mm | |

Product Packaging

Standard packaging: 100pcs bulk packed Special packaging available by request Termination Procedures Prep cable end

Options

Connector version available : 3mm cable, 2mm cable and 900um, buffered fiber

ATTENUATORS

PLUG-IN TYPE FIXED ATTENUATOR

SC Attenuator

FC Attenuator

LC attenuator

MU Attenuator

Adapting advanced attenuation fiber technology, plug-in type fixed value attenuator features high power endurance and low backreflection, suitable for high speed digital transmission and analog applications. Available in singlemode or multimode, FC, SC, ST, LC and MU type.

Description

OPTICLINK attenuators are manufacturer by precision and high quality components.

| | | | |
|-------------------------------|---|---------------------------------------|----------------------------------|
| Dimensions | FC -10mm (OD) x 30mm (L) | SC -35mm (L) x 12.7mm (W) x 9.5mm (D) | LC -33mm (L) x6mm (W) x 10mm (D) |
| Reflectance | UPC>55db APC>60db | | |
| Attenuation Tolerance | Attenuators, 5db+ 0.5db attenuators, 6 to 30db + 10% of the attenuation | | |
| International Standard | Telcordia GR-910-CORE SC / FC / LC / MU 1 to 30dB with 1dB increments(or custom attenuation within this range) 1310nm and 1550nm (Or single wavelength) Digital Band 1260-1360nm and 1430-1580nm(BellcoreSpec.) S + C + L Band 1480-1610nm Special Bandpass 1310±25nm and 1470-1610nm Single Window 1280-1340nm or 1510-1590nm Dual Window 1310 and 1550nm (±25nm) | | |

Product Packaging :

Each Attenuator is packaged individually.

Features:

- Plug-in type package
- Accurate attenuation
- Ultra low back reflection
- Broad wavelength band
- Flat response over all wavelength
- Quick delivery

Applications :

- Telecommunication network
- Fiber optic sensors
- Test and measurement
- LAN and WAN
- FTTX
- CTV

- Zipcord(Simplex, Duplex) optic cable
- Figure zero optic cable
- Distribution optic cable
- Break out optic cable Loose
- tube optic cable Armoured
- Outdoor optic cable Aerial
- optic cable

INDOOR OPTICAL FIBER CABLE

ZIPCORD (SIMPLEX, DUPLEX) OPTIC CABLE

Cable Design

- Optical fiber
- Tight buffer
- Aramid yarn
- Outer jacket

Features

- Fiber type SM(G652/G657/G655)
MM(OM1/OM2/OM3/OM4)
- Outer diameter(1.8/2.4/2.8/3)mm
- Easy strip, tight buffer, semi tight buffer
- Jacket : LSZH.PVC
- Color : standard color

Main Applications

Building to building interconnection; indoor distribution; pigtail of the instrument-type communication equipment, as the moveable connect line for patch cords and connectors

Temperature Characteristics

Operate temperature range: -20℃ to +60℃
Storage temperature range: -20℃ to +60℃

Environmental Characteristics

This Cable meets RoHS requirements

Zip Simplex Optic Cable

Zip Duplex Optic Cable

SLIDING PATCH PANELS**SLIDING PATCH PANELS**

The sliding patch panel system in its basic form is supplied with the panels unloaded without adapters ready for you to install the adapter of your choice. The panel can also be pre-loaded complete with the required adapter and simple splice management kit, or pre-loaded with pigtails to meet your project needs. The tray is locked in place with two simple to operate plastic catches, when fully extended the tray is designed to lower to 45°, or move the tray to the side and it will lock to lower only 10°. This provides the perfect working platform for simple installation or easy maintenance and access even after the panel is installed in the rack.

Plan view**Recess option****Panel packaging****Rear view****45° working angle****Secured lid****Features**

- Better bend radius
- Environment friendly material & package
- screen printed for easy labeling
- 45 degree working angel
- Multi functional rear cable entry options
- Panel number rack number identification label
- No sharp edges
- 4 cable entries

Specifications

- 1.2 mm cold rolled steel
- Powder coated in black or grey

MODULAR PATCH PANELS

The Modular patch panel system in its basic form is supplied with the panels unloaded without adapter plates. The panel can also be pre-loaded with any 3 combination of adapter plates of your choice, or pre-loaded with pigtails to meet your project needs. An optional simple splice management kit can also be included. The tray is locked in place with two simple to operate plastic catches, when fully extended the tray is designed to lower to 45°, or move the tray to the side and it will lock to lower only 10°. This provides the perfect working platform for simple installation or easy maintenance and access even after the panel is installed in the rack.

Part No.:SP13

WALL BOXES

LOCKABLE WALL BOXES

The wall box system in its basic form is supplied with the box unloaded ready for you to install the adapter of your choice. The box can also be pre-loaded complete with the required adapter and simple splice management kit, or pre-loaded with pigtails to meet your project needs.

Double door

Bend radius & cable exit right

Single door

Bend radius & cable exit left

Single door

Secure lock

Features

- Available in single and double door models
- Double door models include two separate locks for security
- Internal bend radius protection included
- Cable entry&exit points can be knocked out to suit installation

Applications

- Internal use only
- For use in multi-swellings or as a demarcate point within a network

DOUBLE DOOR LOCKABLE WALL BOXES

SWB08

| Double door lockable wall boxes | |
|---------------------------------|--|
| Description | SWB06 - Lockable 96 Position ST / FC Double Door Wall Box |
| | SWB07 - Lockable 72 Position SC / LC / E2000 / MTRJ Double Door Wall Box |
| | SWB08 - Lockable 48 Position SC Duplex / LC QUAD Double Door Wall Box |
| | SWB09 - 4 Position Modular Double Door Lockable Wall Box |

Specification

Cable entry 1X20mm gland holes

TERMINATION BOX

TERMINATION BOX

Termination box is suitable for mounting fiber to fiber pigtail and it protect fiber optic splices and helps to distribute. The termination box is a wall mounting type or desktop type, which is mainly used in telecommunication equipment room and network equipment room.

TBA

Features

- TBA is designed in up-down bisection , its installation is quite simple , by untightening one pieces of fixing nut, it succeeds in opening the housing and allow fix cable and pigtail to pass in and out in one side, the termination box is made of high-strength polycarbonate plastic materials, which has mechanical strength.
- With its opening angle above 90 degree makes it easy for installation and maintenance: distribution of pigtail cannot be determined (it is not used for the moment), it is possible to wind pigtail into clasp. Whenever it is needed, the connector could be installed outside of the housing, therefore it can connect termination equipment without connecting adapters.

THE ORDERING GUIDANCE

| Type | Max. capacity(core) | Optical Fiber Splice Tray(OFST) (including heat shrinkable protective sleeve) | Measurement |
|--------|---------------------|--|-------------|
| TBA-06 | 6 | 1 piece of FOST with 6 cores | 265x153x42 |
| TBA-12 | 12 | 2 piece of FOST with 6 cores | 265x153x42 |
| TBA-18 | 18 | 3 piece of FOST with 6 cores | 265x153x60 |
| TBA-24 | 24 | 4 piece of FOST with 6 cores | 265x153x60 |

SPLICE CLOSURE

ENCLOSURES-OPTSC-B

Innovative design SOFSC-A is an arc and horizontal type with one hinge in one side and open in another side. Two pieces of insert Plates and fixing bolts are used to fix and seal OPTSC.

OPTSC-A consist of one set elastic dear fitting , out company patent product, which, based on an advanced formula, is make of injection-molded, high quality elastic sealing material by numerical control equipment. It Is installed between OPTSC housing and insert plates.

OPTSC-B

Dimension and capacity

| | |
|--------------------------------|--|
| Outside dimension (LxWxH) | 410x200x120(mm) |
| Weight (excluding outside box) | 1900g-2100g |
| Number of inlet/outlet ports | 6 ports (3 each side) |
| Diameter of fiber cable | 8-16mm |
| Capacity of FOOSC | Bunchy:6-96(cores) Ribbon: max. 144 (Cores) |

THE ORDERING GUIDANCE

| Type | Unit | Optical Fiber Splice Tray(OFST) (including heat shrinkable protective sleeve) | Total capacity (cores) |
|-----------|------|--|---------------------------|
| OPTSC-B24 | Set | OFST with 1-24 cores | 24 cores |
| OPTSC-B48 | Set | OFST with 24-48 cores | 48 cores |
| OPTSC-B72 | Set | OFST with 48-72 cores | 72 cores |
| OPTSC-B96 | Set | OFST with 72-96 cores | 96 cores |

CABINETS

WALL MOUNTED CABINETS

Strong and robust 19" wall mounted cabinet, with a lockable steel framed glass door for safety and security, quick release hinges allow for easy access to the cabinet for loading equipment and cables, with gland plate covers on the top and bottom of the cabinet to allow for cable entry, the sides, of the cabinet are ventilated to improve air flow

Features

- 600mm wide,
- 6u,9u,12u and 15u 450mm deep
- Sliding 19" mounting profiles front and rear
- Standard ventilation top and bottom
- vented framed door with safety glass
- Rear panel installation
- Heavy duty construction-60kg(UDL)
- Pre-assembled
- Lockable side panels
- Door opens 180 degrees, hinged left or right
- Built in cable strain relief positions
- Grey-Ral7035

Specifications

- Top and base panel 1.2mm
- Slide panels 1.2mm
- Framework 1.2mm
- 19" mounting angels 1.5mm
- Matching lock configuration an side panels
- Individual lock on front door
- Chassis support(L RAll)maximum load 20kgs
- Material thickness 1.2mm

Lockable side panels

Sliding mounting angles

Secure lock

Quick release door

Side latch

ACCESSORIES

ACCESSORIES

To complement our range of fiber management products, Opticlink also offer a full range of accessories to help you to construct, manage and splice your fiber network.

Splice Tray Lid and holder (available in white or black)
Part No.:
 TRAY01BK
 TRAY01WT

Splice Cassette With Clear Lid (available in white or black)
Part No.:
 TRAY02BK
 TRAY02WT

Panel Blanks
Part No.:
 SOFSTBLANK
 SOFSCDBLANK
 SOFSCSBLANK

Cable Management Kit
Part No.:
 SOFKIT01

Splice Protectors
Part No.:
 SOFSPLICE45CLEAR
 SOFSPLICE60CLEAR

1U Brush Strip **Part No.:**
 SOF1UBRUSHSTRIP (1U Brush Strip)

1U Fan Unit
Part No.:
 SOFFAN01 (2 fans EU style)
 SOFFAN02 (4 fans EU style)
 SOFFAN03 (2 fans UK style)
 SOFFAN04 (4 fans UK style)

1U Cable Bar with Brush Strip
Part No.:
 SOF1UCABLEBAR/BR

Cantilever-1U or 2U
Part No.:
 SOFSHELF14 (1U 300mm Deep Cantilever Shelf)
 SOFSHELF13 (2U 300mm Deep Cantilever Shelf)

Sliding Shelf
Part No.:
 SOFSHELF10 (600 Deep Sliding Shelf)
 SOFSHELF11 (800 Deep Sliding Shelf)
 SOFSHELF12 (1000 Deep Sliding Shelf)

Blanking Plates
Part No.:
 SOF1UBLANK (1U Blanking Plate)
 SOF2UBLANK (2U Blanking Plate)

Cable Management Bars
Part No.:
 SOF1UCABLEBAR (1U Cable Management Bar)
 SOF2UCABLEBAR (2U Cable Management Bar)

MEDIA CONVERTERS

10-100M MEDIA CONVERTOR

10/100 base media converter can work in conditions with ultra broad band voltage and with the temperature of 50°C. MDI, MDI-X functions are available on TP port so that the users can get connected directly with PC, switch, router or hub, no matter the users use straight-through TP cable or cross TP cable. When these series Media-Converter is working in Auto-negotiation mode, it's able to realize the best matching by adapting itself to the speeds and simplex-duplex modes of the equipments connected. LFP is a special function to indicate malfunctions happen to remote cable or cat 5. Led indicators on switch or hub can show them. In order

Features

- Available in full-duplex and half-duplex function
- With auto-negotiation, MDI/MDI-X ability,
- Store and forward mode, broadcast storm protection
- With LED status indicators, easy to install and maintain,
- Static-proof and thunder stroke proof.

Applications

- Board Bank Fiber Network for network manager company
- Board bank network for government organization , oil , industry, system, railway transport, electric power system, public security, education etc
- Media transmission like picture, sound and data transfers
- Stakeout and control on the spot.
- Making network in abominable environments
- FTTX(FTTC,FTTF,FTTB)
- Telecommunication

1G MEDIA CONVERTOR

IEEE802.3z/AB 1000Mbps Gigabit Ethernet supports two types media for network connection such as 10/100/1000Base-T and 1000Base-SX/LX. The media converter is designed with a switch controller and buffer memory that connects two types segments to operate smoothly. With internal power unit, it provides good stability and reliability.

Features

- Compliant with IEEE802.3 IEEE802.3ab standards for TP connection and IEEE802.3z standards for fiber connection
- 10/100/1000 base-T to 1000Base-SX/LX fiber conversion. Provide Fiber-optic port with SC connector.
- Automatically detects and configures the twisted pair port on the coverter to the correct MDI or MDI-X configuration.
- Status LEDs for FX link, actively, PWR, TP link, activity, FDX.
- Wide range of external power supply

Applications

- Broadband fiber optic network.
- FTTX(FTTC,FTTF,FTTB)
- Telecom Application

COUPLERS/SPLITTERS/WDM

FUSED SPLITTERS

Truly fused dual window couplers are specially designed and optimised for Fiber to the Home (FTTH) applications. Manufactured using a state of the art Fused Biconical Taper process (FBT), these couplers exhibit uniform performance over the entire optical band from 1260-1630nm with near zero excess loss. The epoxy free optical path of the Truly fused couplers provides good power handling capability.

FUSED WDM

Opticlink provide high performance WDMs, are used for multiplexing two different signal into a single fiber or to separate in to two signals having spate wavelengths, from an incoming fiber. 1310/*550 DM can be applied in single fiber bi-directional communications systems

Features

- Low polarization dependent loss
- Good Environmentally stability
- Broadband transfer
- High stability and reliability

Applications

- Telecommunication
- Fiber amplifier
- WDM system
- Bi-direction Network
- Optical commutation Equipment

PLC SPLITTER MODULES

Planar Splitter are available in the form either Module cassette, rack-mount wall-mount box with fiber diameter up to 3mm.

Feature

- Low Excess Loss
- Good Directivity
- Low PDL
- Good Environmental salability
- Standard/Flattened
- Broadband/tree/star

Applications

- Optical fiber communication
- Fiber access networks
- Fiber CATV
- Fiber test equipment
- Monitoring system/Sensor
- Light Source Distribution
